Barracks were vacated on or about 1 June. Gasoline stocks were shipped out north-northeast, to an unknown destination.

2. Eberswalde (V08)

- a. Eberswalde police state that there are approximately 12,000 Russians in the town.
- b. A motor repair company, the Soviet construction office, and a club are located in the Eisenbahnstrasse. The MVD office is in the Pfeilstrasse.
- c. East of the railroad to Liebenwalde is a fuel dump with about 500 barrels and 20 tank cars. A Soviet settlement includes part of the MEW works and extends to the Ardelt Werke at the edge of town. The Ardelt plant houses a Soviet staff. In addition to ordinary field and permanent lines, seven rubber trunk lines with various junction lines run into this building. (Permanent lines in Eberswalde and surroundings are being equipped with bell insulators to increase their capacity). Officers of the motorized infantry, moto-mech artillery, armored units, engineers and air force have been seen at this headquarters.
- d. Northeast of staff headquarters are the billets of 150 Soviet Air Force personnel. These men are equipped with a radio truck. Between this unit and the Bahnhof area are a military hospital and a military tailor shop.

25X1B

f. Constant liaison takes place between the Ardelit-Werke staff and another situated north of the Eberswalde-Friedenwalde road. There are telephone lines between the two headquarters and lively courier service. The road leading to the latter headquarters is marked with the letters KN and a star inside a triangle. [redacted]
Barracks in the neighborhood are believed to be occupied by a moto-mech regiment whose men wear black tabs with red piping.
